

You Save the Earth, You Save Yourself.

A TRUE patriot, Al Gore, has this plan.

*Support a 10 year plan to switch America to clean energy and believe that Americans have what it takes to make it work. Don't be led down the wrong road by nit-wit blowhards.*

## Greg's "Believe it, Or not!" *Al Gore Invented the Internet?*

With his sponsorship and support of the "High Performance Computing and Communication Act of 1991" he ensured government support of pre-Internet technology.

**S.272**

**Title:** An Act to provide for a coordinated Federal program to ensure continued United States leadership in high-performance computing, and for other purposes.

**Sponsor:** [Sen Gore, Albert, Jr.](#) [TN] (introduced 1/24/1991)

[Cosponsors](#) (24)

**Related Bills:** [H.R.656](#), [S.343](#)

**Latest Major Action:** 12/9/1991 Became Public Law No: 102-194.

They made fun of him! Ridiculed him! Laughed and pointed at him. But Al Gore REALLY DID it! With an Act of Congress in 1991. Ignore the wide spread jokes you've all heard. Even though he never actually claimed he "***invented*** the internet", Al Gore is the only politician listed as Sponsor of Senate bill S.272 passage which passed on December 9, 1991 and gave federal support to a national research network which eventually developed into the internet we use today. That is a fact. He also coined the term "information superhighway" in 1978.

He is surely a man ahead of his time and deserves our respect and attention.

## Save the Earth, Save Yourself. Support Al Gore.

If you hate Al Gore, why not listen to a very successful Republican Entrepreneur Billionaire, T. Boone Pickens? He also supports Al Gore! Why? He sees the writing on the wall.

"I've been an oil man all my life, but this is one emergency we can't drill our way out of. But if we create a new renewable energy network, we can break our addiction to foreign oil."

### AL GORE IS A TRUE AMERICAN HERO!

*"Al Gore is a true American Hero."* He needs to be listened to. There are very few people I listen to. What he says about climate change is ignored at our own peril. He may be the most important person alive on Earth. Nay-sayers beware. This is not a test. This is not a drill. We only get ONE chance. If

we're wrong? ... Will it be Doom? ....Will it be Destruction? ....Will it be Mayhem? Probably just a SLOW excruciating strangling of life as we know it. How big a gambler are you? How much are you willing to risk? The fate of your neighborhood? Your country? The World? Al Gore has turned out to be THE spokesman for

The Future. You cannot ignore The Future. The Future will find you even if your not looking for it. Embracing the future will sustain your PAST accomplishments. Protect YOUR past by protecting and preserving The Future. Listen to the facts. Listen to what the future is asking.
