

Rosaline Snowball

©Laura Sandison 2005 for Arachne use

14 bobbins Egyptian cotton 100

Begin at center with 12 bobbins, working bud clockwise. End and carry threads to petal.

Work petals counter-clockwise with 14 bobbins. End and carry threads to outer ring at a petal top.

Work outer ring with 14 bobbins, remembering to picot at outer edge. Using worker and inner pair, work connecting braid clockwise to join petals and ring as seen on pattern. Add a picot at center of each braid.

Snowball can be mounted or inserted into acrylic key rings.
Removing the metal key ring allows it to be used as an ornament.
