

TERMS LIST FOR FINAL EXAM
(SECOND INSTALLMENT)

Chickering, *Imperial Germany and the Great War* (1998 & 2004)

Besides learning these terms, remember the names of the Germans you have encountered so far. I do not duplicate them here.

This list is only intended to help you prepare for the final exam. You will have to draw your own conclusions about what matters for the second paper.

As you study this and the other books, think about the ways in which the war became "total". View the problem from the point of view of international politics, the fighting, domestic politics and culture, economic activities, and so on. Compare what you have learned about this problem from all of the books we have covered thus far. If you do that thoroughly, you will be ready for any exam question I could ask.
