

NAME

Comment_Node – Node in an HTML tree for comments

SYNOPSIS

```
namespace HTML_Tree {  
  
    class Comment_Node : public Text_Node {  
    public:  
        Comment_Node( char const *comment, Content_Node *parent = 0 );  
        Comment_Node(  
            char const *begin, char const *end, Content_Node *parent = 0  
        );  
    };  
  
}
```

DESCRIPTION

Comment_Node is-a Text_Node that contains the text of comments (including the <-- and --> delimiters).

Public Interface**Constructors**

Construct a Comment_Node. The arguments are the same as for Text_Node.

SEE ALSO

Content_Node(3), **Text_Node(3)**.
