LARGER SIZES can be produced in very limited editions. Please contact regarding price.

LISTED SIZES are paper sizes in inches: panel may be slightly smaller due to printing and mounting exigencies.

FRAMING: please call for pricing. I've listed suggestions below.

ALUMINUM PANEL MOUNT: Photographs are mounted on anodized aluminum with a 1/8" UV acrylic laminate and a 1" U channel hanging system.

FLOAT MOUNT: An alternate framing method that is more protective, but still indicates the object nature of the work, is floating the print in a frame. The print is mounted on diebond, raised off the strainer, and mounted behind UV plexi or glass.
