

# Binding Your Rusty Pickle Album

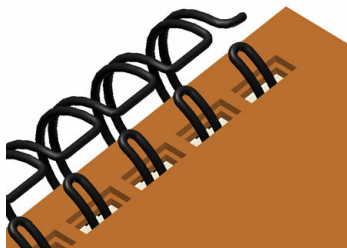

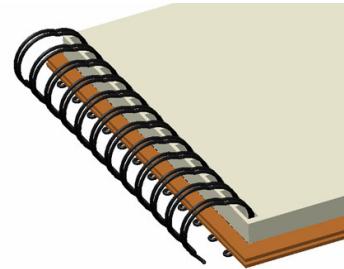

1. Place your album into your desired finished order.  
(Top cover - Paper - Back cover)

2. Flip the back cover onto the top (Inside facing up)

3. Flip your album over so that the paper now faces up and the covers face down

4. Insert the coils (**round end first**) in to the **HOLES OF THE PAPER** -not the cover (this "locks" the paper into the book).

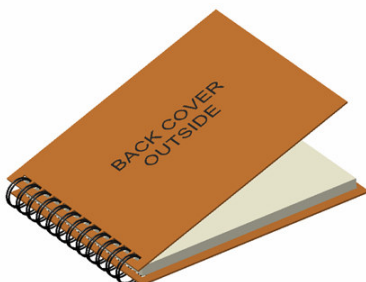

5. Bend the Coils.

- Hold the "square side" firm with you thumb and bring the "round side" in between the "square side" with you fingers.
- Do not bend it all the way into place. Get it close, as illustrated in the example.

6. Work the coils into place.

- Repeat step 5, this time closing the coils all the way.
- Bend the "round side" of the coil slightly beyond the square end, allowing the coil to "bounce back" a little.

7. Close the back cover to the "back" position.
