

Posting to the Class Blog

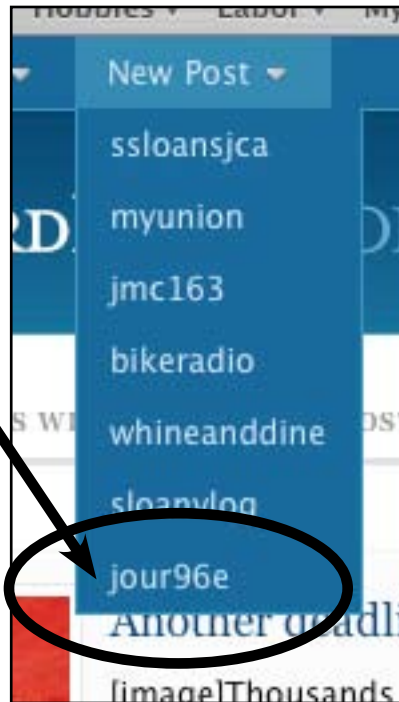

An easy how too!

Step One
Go to:
Wordpress.com

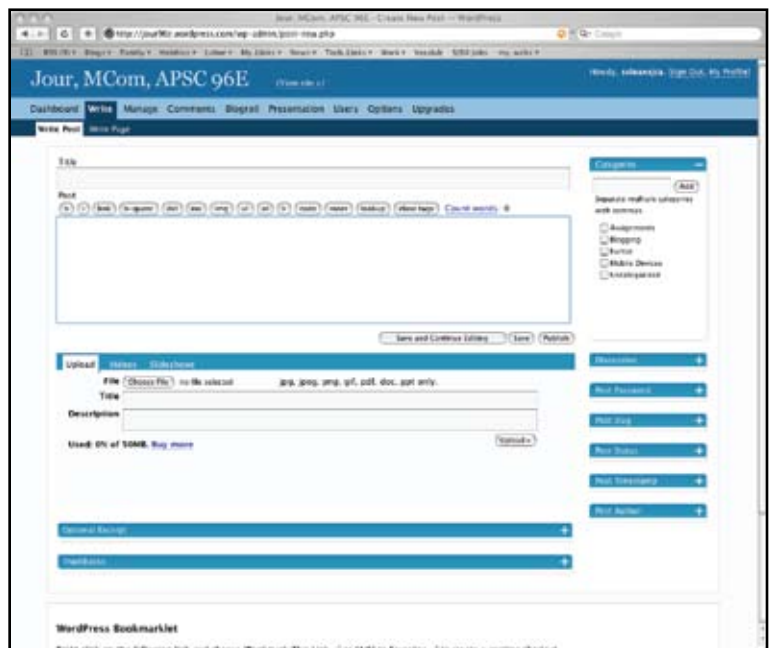

Step Two
Log in:
Use the user name you created and your password.

Step Three:
A new menu
comes up called
“New Post”
Click and hold
on that menu
and you will see
our blog.

Note:
Your list will not look the
same as this.

Step Four:
Now you can write. Note that
there is a built in spelling
checker!
Be sure to give your post a
subject name.

Title

Creating a post is this easy

Post

It is not as hard as you think. If you can email, you can blog!

Depending on the type of web browser you are using you may see some interface variations. This is what the text input interface looks like in Safari on a Macintosh. Don't sweat the interface differences, just write!

Step Five:
On the right you will note there are categories. Please check all the boxes that are applicable to your blog post.

Categories

Separate multiple categories with commas.

- Assignments
- Blogging
- humor
- Mobile Devices
- Uncategorized

Step Six:
After you have written your post, given it a title, selected a category and are ready for it to go on the blog, click on "Publish."

Step Seven:
To view the blog after you publish, click on "View Site."
