The applications supplied on this CD are supplied as is and we make no representations regarding the applications or any information related thereto. Any questions, complaints or claims regarding the applications must be directed to the appropriate software vendor.

Various different license types apply. Some titles require further payment direct to the application publisher to enable the full feature sets and functions

Audiophile

Ableton Live

Your companion during every stage of the musical process, from creation to production to performance.

Airfoil

Send any audio to AirPort Express units, Apple TVs, & even other Macs and PCs, all in sync!

Alarm Clock Pro

Waking up to headache-inducing buzzers and static-plagued radio stations can now be confined to your past. Alarm Clock Pro enables you to design your daily routine and perform various tasks automatically, such as starting your favorite iTunes playlist!

Amadeus Pro

A powerful multitrack audio editor supporting a variety of formats including MP3, AAC, Ogg Vorbis, Apple Lossless, AIFF, Wave and many others.

Audacity

Open source software for recording and editing sounds; Record live audio; Convert tapes and records into digital recordings or CDs

AudialHub

AudialHub is designed to chop through the mighty jungle of sound formats.

Audio Hijack Pro

Record any audio with Audio Hijack Pro - it's the cornerstone of your digital audio experience

AudioCodex

Real time effects media player that tightly integrates your media, iTunes Library, Quartz Compositions & Core Audio. AudioCodex is made for musicians, DJ/VJs, audiophiles & casual listeners alike.

audiodia

A real-time sound processing application. Simply turn on your microphone and your speakers, select the desired audio filter and press Play or Record.

AudioMixer

Play & mix multiple audio tracks

Canto Pod

Offers users of iPods the ability to download song lyrics for later viewing directly to it.

ClickRepair

Declick & decrackle your audio

CrossAmp

Next generation cross-platform audio player. This audio player also features an option that allows you to search the web for the song lyrics.

desktoplyrics

Display the lyrics of the song currently playing in iTunes right on your desktop.

Disco XT

A professional DJ mixing and music playback software.

djay

Turns your Mac into a full blown DJ setup using all your songs from iTunes — ready to rock your next party with unprecedented ease-of-use.

EasyWMA

Convert wma, wmv/flv audio, asf and ogg vorbis files to aiff, mp3, m4a or wav so that you can play your favorite songs in iTunes or any other player on your Mac.

Express Dictate

Computer based voice recorder that works like a dictaphone. It lets you use your Mac to send dictation to your typist by email, internet or over the computer network.

Fission

Copy, paste and trim audio, as well as split files, all with no quality loss! Rapidly edit mono and stereo files in MP3, AAC, Apple Lossless & AIFF formats.

Futuredecks pro

With FutureDecks Pro you can really mix your songs, nothing else needed but your imagination. Beat-matching is just a click away and also are seamless beat-aware loops, effects and many other things.

iLike

Get updates, music, and videos from your favorite artists; Discover free music from new artists who match your tastes; Share your music library and tastes on iLike.

iRedLite

Control iTunes using your Apple Remote

JackOSX

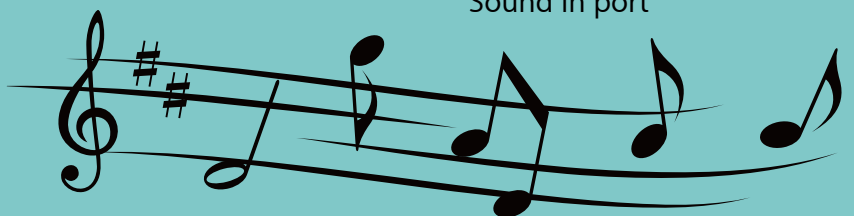

Connecting audio...from any OS X application, to any OS X application

LibraryMonkeyPro

Audio asset librarian, editor, CD ripper, and batch-processor.

LineIn

Play sound coming in through a microphone or any other device plugged in to your Sound In port

Audiophile

Max

Creates high-quality audio files in various formats, from compact discs or files.

MegaSeg

Easy to use, yet powerful music mixer, broadcaster & scheduler.

MusicPort

Stream iTunes music over the internet between Macs.

naiocast

A free HTTP streaming server that allows live transmission of audio files

Nicecast

Create your own internet radio station or allow you to listen to your iTunes Music Library from anywhere in the world!

Pure Vinyl

Audiophile quality digital LP playback, conversion, editing and archival software.

QuickVoice

Feature-rich voice recorder with voice email, voice reminders, and voice stickies.

recorder.xhead

A voice recorder, audio player and audio conversion application that is designed to be easy to use and to record CD quality audio directly from internal or external microphones.

RecordPad

Ideal application for recording voice or other audio to add to digital presentations, creating an audio book or to simply record a message.

SFX Machine Pro

Create your own audio effects from scratch.

SFX Machine RT

The penultimate audio effects software

SiriusMac

Stream sirius satellite radio to a Mac with ease

SoundByte

Digital automation software for a variety of recorded sounds. It handles all audio formats supported by Quicktime.

SoundGrinder

Batch audio conversion application.

SoundGrinderPro

Batch audio conversion application with support for a variety of formats, along with the retention of metadata for .mp3, Ogg Vorbis, FLAC, and Quicktime.

SoundSource

A tiny tool for OS X enabling you to switch your audio input and output sources with a single click, and even adjust their volume settings.

SoundStudio

The best waveform editor and batch-processor combination ever available!

StreamRipperX

Record and listen to Internet radio stations broadcast in the popular mp3 format

switchmac

The most comprehensive and stable audio file converter around

TapeDeck

Simple, fun audio recording software for Mac OS X using the familiar metaphor of a cassette recorder.

TuneQuiz

Fun game that tests your musical knowledge from your iTunes library

TwistedWave

Powerful and very easy to use audio editor

Ubercaster

Complete production suite for podcasting

UltraMixer

DJ mixing software which enables you to mix digital music in various formats.

VoiceCandy

A fun, effortless, recorder for your Mac.

wakeup

An alarm clock that plays tunes

WavePad

Full featured professional audio editor

WireTapStudio

Record the discrete audio output of any application, as well as all system audio, or record audio input from any microphone, line-in, or audio input hardware.
