

iBIBk*/Fostex FE12Xe
 ml-v sim by Scott Lingren
 design & drawn by Dave Dlugos
 26-january-07

o/ 18 mm material

*(inverted Bigger-is-Better with
 Karlson Slot)

fill-in piece tuck
 behind
 supraBaffle sides
 to create a
 trailing edge

cut-out from
 Karlson Slot

area of rear
 Karlson Slot ~27
 in² (you have to
 figure the shape
 out on your own)

i'm open to
 suggestions on
 the cosmetics of
 these spacer
 bits. Do we
 mirror them on
 the front?
