

Vampyr – Daughter of Chang  
 Fostex FE103e Double Mouth Moose BVR  
 Horn 1v1  
 Sheet 0 -- panel placement  
 designed by Scott Lindgren  
 drawn by dld / 01-january-2009

Notes:

0/ drawn using  $\frac{3}{4}$ " (19mm) material

1/ triangle at back of CC is shown at 1" sides, not super critical -- its purpose is to combat port-to-port interference

2/ the mouth deflectors can be built using stepped strips or a single piece deflector (as shown)

3/ damp main chamber as you would a bass reflex

4/ no bracing exceptsuggested holey driver brace shown. With small panel size no more are probably required.

5/ Due to small clearances, take great care with the baffle around the driver cutout.
