## YOUR SECOND LIFE. SECOND TO NONE.

Welcome to Raymaker  
Land Management!

We specialise in  
premium land and water  
parcels in Second Life.

Choose from our  
growing portfolio, to suit  
your personal needs  
and unique preferences:  
we offer parcels on the  
Linden continental  
mainland, and on  
private estates; we offer  
residential and  
commercially-zoned  
land; we offer high-rise  
living and berths for  
your boat; and we offer  
you the choice of  
parcels free of existing  
builds and those with  
bespoke prefabs just  
ready for you to move  
in!

## VISIT US AT DURANGO (187, 39, 120)

Raymaker Land Management has its gallery at Durango, in the original snowland region of the Linden continent of Sansara.

At our gallery, you will find detailed information on all the land and water parcels in our portfolio.

You will also be able to initiate your rental directly from the automated vendors.

Veritas Raymaker welcomes your visit!

### Our Environmental Ethic

All our properties are managed under a carbon-offset scheme. We were one of the first entities in Second Life to do so, beginning in January 2008.

Veritas Raymaker is a member of the Honorable Land Dealers Association.
